

National survey says the Chamber is the #1 contact point on the web, email, by phone, or visiting in person to gain information about an area. Chamber members always get first referral.

Chamber members are listed on our website at www.gcoregonlive.com. Your business will have a page on our website with contact information, website links, a description of the services you provide, your logo, photos and a Google map locating your business.

The Chamber offers its members opportunities to promote their business or services with cooperative marketing and advertising at reduced costs, giving your business exposure and advantages not otherwise available.

National survey indicates that the public tends to trust and look for businesses that are members of the Chamber of Commerce.

Chamber membership means that you are welcome to attend our meetings, work on chamber projects, and get involved as a board member if you desire.

All new members will receive a membership sticker and four 30 second spots on Radio KJDY. Your business will also be mentioned in the monthly Chamber Newsletter.
